

AKRON BRANCH BANK.—Many rumors are in circulation in regard to this bank.—We have good authority for saying that the bank became embarrassed by its aid rendered the Akron and Millersburgh railroad, and has been taken in charge by the Board of Control, who, at its counter, are redeeming with specie, its circulation; and will pay all the depositors. The banks of this city are receiving the bills of the Akron Bank.

With the most sincere regret we learn that Mr. Simon Perkins, of Akron, the chief backer of the Akron branch road, has been compelled by the stringency of the times to make an assignment. Mr. Perkins is one of the most esteemed and honorable men in Ohio, and has property worth five times the amount of his liabilities.

This afternoon we received the following dispatch:

EDITORS HERALD:—The rumors published in the Leader this morning as to the Bank of Akron, are entirely unfounded.

A. M. EHRMAN, Cashier,

We presume the Board have levied contributions upon the other branches to sustain the one at Akron.—[Cleve. Herald.]

Putnam, for December, will be a great number, containing a reply, by a Southerner, to Godwin's article on "Parties and Politics." This will excite a deep interest, as the paper will be the ablest defence the south can make of its "peculiar institution" and its general policy. Who is the author is not stated, though it is surmised that Charles Gayarre, of Louisiana, can justly acknowledge its source. The portrait is to be that of Lowell.—[Ib.]

Marshal St. Arnaud died of aneurism of the aorta, brought on by over fatigue and excitement. Physicians of standing, say that the grand vessel of the blood, the aorta, had been very much weakened, and would consequently give way in a certain space of time. This time had been fixed at two years; and when he died it wanted 26 days of the appointed limit to his life!

THE HYDROMAGEN, or Water Proof, Anti-Consumptive CORK SOLES,
MANUFACTURED BY
HARCOURT, BRADLEY & CO.,
44 Market-St., Manchester.

Principal Warehouse, 162 Wood Street, Cheapside, London, England. American Establishments, 38 Ann Street & 102 Nassau Street, New York, U. S.

THE Hydromagen is a valuable discovery for protecting the feet from damp or cold, and therefore a preventative of many Lung diseases, without any doctoring whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe.—Its medicated character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest or rainiest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede *oiled shoes*, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous to wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being a mere thin slice of cork prepared, peculiarly placed inside, does not increase the size of the foot, or cause the foot to appear untidy. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides, those who patronize them will find their yearly doctor's bills much diminished thereby.

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent.—Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburg, and Berlin, our sales reached 1,732,150 pairs of Cork Soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventative for Coughs, Colds, Bronchitis, Asthma, and Consumption.

NOTICE.—From the Retail Prices we make a very liberal allowance to Jobbers and Wholesalers, so that any storekeeper may make a fine profit on their sale, while they are an article that may be kept in any store, among any class of goods.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female Complaints, &c. &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the bowels all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of quackery.

Among the many eminent gentlemen who have testified in favor of these Pills, we may mention:

DR. A. A. HAYES, Analytical Chemist, of Boston, and State Assayer of Massachusetts, whose high professional character is endorsed by the

HON. EDWARD EVERETT, Senator of the U. S.

ROBERT C. WINTHROP, Ex-Speaker of the House of Representatives.

ABRIOTT LAWRENCE, Minister Plen. to England.

JOHN B. FITZPATRICK, Cath. Bishop of Boston.

Also, DR. J. R. CHILTON, Practical Chemist, of New York City, endorsed by

HON. W. L. MARCY, Secretary of State.

WM. B. ASTOR, the richest man in America.

S. LELAND & CO., Proprs of the Metropolitan Hotel, and others.

Did space permit, we could give many hundred certificates, from all parts where the Pills have been used, but evidence even more convincing than the experience of eminent public men is found in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity, and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If, however, there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.
